

ARUP GHOSH

AI-Driven Digital Transformation & Operational Excellence Leader

Associate Vice President | Healthcare Payor | \$191M Portfolio | Lean Six Sigma Master Black Belt | Agentic AI Leader
Tampa, FL, USA • arupghoshofficial1@gmail.com • +1 813-510-9993 • linkedin.com/in/arup-ghosh-deliveryexcellence

PROFESSIONAL PROFILE

Award-winning Enterprise Transformation Leader and Change Agent with 22+ years of progressive experience converting global client demands into profitable, scalable, data-driven delivery models. A proven track record of integrating AI, robotics, and advanced analytics across BPaaS, PaaS, IT, and BPO environments in multinational, multi-geography settings (US, UK, India, Mexico, Philippines). Recognized for steering Business Process Engineering, Operating Model Transformation, and enterprise-wide Continuous Improvement, while building high-velocity agile teams aligned to KPI targets. Trusted advisor to CEOs and COOs, adept at translating business strategy into measurable execution — delivering \$40M+ in cumulative cost savings, NPS uplift from 20 to 61, and pioneering AI adoption in highly regulated healthcare operations.

SIGNATURE IMPACT

- 22+ years of enterprise transformation leadership across global, multi-geography MNCs
- \$40M+ in cumulative cost savings delivered since 2021
- \$191M portfolio and 2,500+ resources under management
- Customer NPS transformed from 20 to 61; 55% of contact-center calls resolved by AI
- Platform straight-through processing improved to 97%; 150+ Lean Six Sigma initiatives led

AREAS OF EXPERTISE

Strategic Leadership: Trusted Advisor to CEOs & COOs, Global Delivery Models, P&L Management, Revenue Growth Strategy, Cost Optimization, Service Delivery Architecture, Portfolio Governance, Stakeholder Influence, Workforce Optimization

AI & Digital Transformation: Agentic AI, Generative AI, Natural Language Processing (NLP), AI Integration, Intelligent Automation, Robotic Process Automation (RPA), Contact Center AI, Digital Ecosystem Design, AI Use Case Development

Data / Metrics-Driven Governance: Enterprise Transformation Governance, Portfolio Management, Predictive Modeling, Business Intelligence, Statistical Analysis, Value Realization, Risk Management, Metrics & MIS Management, KPI Reporting

Operational Delivery: Operations Management, Service Delivery, SLA/KPI Governance, Platform Modernization, Cost & Margin Improvement, Organization Change Management, Vendor & Supplier Management, IT/Platform Re-engineering

Process Excellence: Lean Six Sigma (Master Black Belt), CMMI Level 5, ITIL 4, Agile/Scrum, Business Process Reengineering, Continuous Improvement, Quality Management, Customer Journey Mapping, CSAT Improvement

Domain & Geographies: US Health Insurance, Affordable Care Act (ACA), Healthcare Payor, BPaaS, PaaS, BPO, ITES; multinational delivery across US, UK, India, Mexico & Philippines

KEY ACHIEVEMENTS & TRANSFORMATION IMPACT

AI-Infused Transformation

- Pioneered AI adoption in Contact Center operations within Wipro U.S. Healthcare — the first such implementation in a highly regulated industry — achieving 55% of calls resolved without human intervention, 20% reduction in Average Handle Time (AHT), and 10% improvement in First Call Resolution (FCR).
 - Major use cases delivered: AI Voice IVR for transaction-based calls, AI Agent Assist for human-managed calls, 100% automated audit, real-time translation, and advanced analytics dashboards.

- Infused AI across the entire back-office processing value chain — deploying NLP-based document reading & classification, AI Agent Assist, Auto-Auditor, Error Prediction module, Auto Processing BOT, Intelligent Correspondence Management, and ML-based workforce allocation.
- Improved platform straight-through processing from 81% to 97% by enhancing platform functionalities, sharply reducing back-office volume and enabling significant cost reduction.
- Refined claims adjudication through heavy digitization, moving auto-adjudication rates from 55% to 81%.
- Constructed a unified enterprise automation framework, shifting bot-executed work from 36% to 55% and cutting manual intervention across the enterprise; built FOPs for Enrollment and Claims solutions.

Cost Optimization & Revenue Growth

- Reduced \$13.5M in cost in 2025 by implementing Contact Center AI, lifting platform STP beyond 97%, and eliminating annual contractual penalties through SLA performance uplift.
- Extracted \$12.3M in operational savings in 2024 by modernizing legacy platforms, refining offshore delivery models, and improving productivity through multiple tools and automation solutions.
- Delivered ~\$14.5M in cumulative savings between 2021 and 2023 through early-stage automation, Lean Six Sigma initiatives, offshore-shift optimization, and productivity improvement programs across the healthcare portfolio.
- Drove revenue growth by enhancing customer experience and enabling client value realization across an 11-customer healthcare payor portfolio.
- Helped an acquired entity reduce cost by \$24M (~20% of annual revenue) through process improvement and resource optimization within the first year (earlier tenure).

Process Excellence & Quality Leadership

- Transformed customer sentiment by overhauling service delivery workflows, propelling NPS from a stagnant 20 to a peak of 61, and improving customer Star Ratings and member satisfaction.
- Instituted 150+ Lean Six Sigma, transformation, and Business Process Reengineering initiatives to standardize global operations and lower total cost-to-serve.
- Defined and implemented enterprise Quality Management Systems — successfully achieving CMMI Level 5 across 3 MNCs (8 business units) and deploying Agile frameworks in 2 MNCs.
- Led organization-wide product/tool implementations including ServiceNow, Digite, MSP, Clarity, Rational, TFS, and VSS; transformed acquired entities into 100% data-driven organizations (from under 10%).

PROFESSIONAL EXPERIENCE

Operation Excellence & Transformation Head, Wipro HealthPlan Services

Mar 2021 – Present

Wipro Ltd • Tampa, FL, USA

- Own end-to-end AI and digital transformation delivery across 11 healthcare payor customers contributing \$191M+ revenue and 2,500+ resources — from use case ideation, business case, and architecture through deployment, hyper-care, and value realization.
- Hold full operational accountability for service delivery, process standardization, cost optimization, margin improvement, and customer experience across the business unit through structured improvement programs and data-driven governance.
- Delivered \$40M+ in cumulative cost savings since 2021 — ~\$14.5M (2021–2023) via early automation and Lean initiatives, \$12.3M (2024) via platform modernization, and \$13.5M (2025) via Contact Center AI.
- Program-manage the full AI and digital transformation portfolio: establish governance cadence, define roadmaps, sequence releases, track KPIs and benefits, manage risks and dependencies, and report outcomes to C-suite stakeholders (CEOs, COOs, CIOs).
- Build and operationalize AI use cases for both the organization and its customers — spanning Contact Center AI (Voice IVR, Agent Assist), NLP-based document processing, Auto-Auditor, Error-Prediction ML, Auto-Processing bots, and intelligent workforce allocation.
- Partner with customers to co-create AI roadmaps aligned to their growth objectives, translating complex business requirements into scalable AI and automation solutions across customer-facing and back-office functions.
- Pioneer fit-for-purpose automation ecosystems — leveraging AI, robotics, and digitization — to capture competitive advantage and deliver measurable value at scale across Wipro US Healthcare Services.
- Architect scalable operating models, governance cadences, cross-functional alignment mechanisms, and quality-control frameworks that enable seamless multi-account onshore and offshore delivery.
- Ensure adherence to contractual SLA/KPI obligations through real-time analytics; drive joint improvement programs that protect and grow client relationships, improving customer Star Ratings and member NPS (20 to 61).

- Develop value propositions anchored in process efficiency, cost optimization, and customer experience; lead presales and solutioning input for renewals and new-logo growth.
- Drive capability building, AI literacy, talent development, succession planning, and a process-excellence culture across the organization through structured learning initiatives.

Platform Quality Head — DOP Service Line (Technology & Automation Assurance) Feb 2016 – Mar 2021

Wipro Ltd (Digital Operations & Platforms) • *Tampa, FL, USA*

- Constructed an enterprise-wide automation framework for a 65,000-resource global business unit (annual revenue \$1.2B+), standardizing RPA deployment and increasing automation rate by ~20% year over year.
- Formulated comprehensive transformation strategies integrating third-party AI/RPA technologies, securing technical buy-in for multi-layered transformation programs.
- Validated complex IT solutions via technical feasibility audits, ensuring alignment between emerging software capabilities and aggressive business growth objectives; evaluated and proposed third-party products in IT solutions.
- Devised modernization roadmaps for DOP platforms and navigated end-to-end re-engineering of core platforms — transforming raw requirements and business analysis into functional, scalable architecture.
- Improved straight-through processing from 81% to 97% over two years; achieved CMMI-SVC Level 5 for Wipro DOP.
- Executed and mentored end-to-end transformational projects for 2 Wipro products (25+ accounts); led IT & process integration of acquired entities and implemented data-driven governance structures.

Business Unit SEPG Lead / Quality Manager

Aug 2011 – Feb 2016

Unisys Global Services India • *Bengaluru, India*

- Led the CMMI Level 5 certification program for Unisys India — owning gap analysis, process architecture, documentation, and audit readiness as Assessment Team Member (ATM).
- Executed 15+ Lean Six Sigma improvement projects as Black Belt / Process Improvement champion, enhancing operational efficiency across global service lines.
- Spearheaded the Customer Delight Program, achieving a 30% CSAT improvement over four years through structured VOC analysis and service workflow redesign.
- Defined key processes (Multisite Delivery, Transition, Agile, Metrics & High Maturity) and led integrated MSPS–TFS–PSA–MSA tool deployment, automating metrics collection and performance baselines.
- Managed SQA, Metrics, and Tools teams across locations; revised global SLAs based on yearly data analysis and conducted supplier audits.

Business Unit SQA Lead / Quality Manager

Jul 2010 – Aug 2011

PricewaterhouseCoopers Pvt Ltd • *Kolkata, India*

- Drove CMMI for Development v1.2 Level 5 implementation — gap analysis, process manuals, and QMS deployment across all consulting projects.
- Owned organization-level metrics analysis, process performance baselines (PPB) and models (PPM), facilitated improvement initiatives, and represented Quality (FAR group member) in assessments.

Quality Manager — Industrial & Energy Utility BU

Sep 2008 – Jul 2010

IBM India Pvt Ltd • *Kolkata, India*

- Ensured smooth delivery of 35 projects supporting 1,500+ resources through process consultation, deployment, and project-management tooling.
- Identified 21 SLAs and implemented SLA-based service management for a reputed client — subsequently benchmarked by the client across all vendors.
- Introduced unit-level review for large projects (2009), later benchmarked and mandated across all SQA in IBM GBS from 2010; served as PPM champion and QPM/CAR/DP trainer.

Quality Consultant, Asia Pacific Region

Sep 2007 – Sep 2008

Tech Mahindra Pvt Ltd • *Kolkata, India*

- Owned process compliance and QMS deployment across Asia-Pacific projects, facilitating Sprint planning, estimation, execution, and review; prepared prediction models for Agile projects.
- Faced client and organizational audits (ISO 9001, ISO 27001) and drove metrics-based corrective action.

Process Consultant / Quality Reviewer (UK & India)

Aug 2004 – Sep 2007

Tata Consultancy Services Pvt Ltd • *Kolkata, India & United Kingdom*

- Process Consultant in the UK (Leading Energy Company & acquired entity Diligenta): defined and implemented review, metrics, change-management, risk, release, configuration, and SLA-management processes; supported PMO program-level planning.

- Quality Reviewer (Kolkata): ensured compliance with TCS iQMS (ISO 9001, CMMI, ISO 20000/ITIL, ISO 27001, TBEM) across 21 projects; served as Information Security coordinator for the Quality team.

Early Career: Quality Team Member, Hindustan Motors (2002–2004) — TQM deployment and ISO 9001 process rollout across 3 plants.

Note: Roles prior to 2021 were primarily organization-level process, quality, and transformation enablement positions; financial impact was realized at program and enterprise level rather than attributed to an individual P&L.

EDUCATION

- Master of Engineering (M.E.) in Quality Engineering & Management — BIT Mesra (Ranked 1st)
- Bachelor of Engineering (B.E.) in Electrical & Electronics — UBDTCE (Ranked 3rd)
- Post Graduate Diploma in Advanced Information System (part-time) — XANSA
- Diploma in Business Administration (part-time) — ICFAI

CERTIFICATIONS & CREDENTIALS

Google Generative AI Leader • Six Sigma Master Black Belt • Certified Lean Facilitator • Certified Assessor for CMMI (ATM, v1.3) • Certified Scrum Master (CSM) • ITIL 4 Managing Professional • ISO 27001 & ISO 9001 Lead Auditor • RPA Business Analyst • PRINCE2 Practitioner • COBIT 5 Practitioner

RECOGNITION

- Award-winning Change Agent and Enterprise Transformation Leader, consistently recognized as a top performer across organizations.
- First to introduce and scale AI in Contact Center operations within a highly regulated US healthcare environment.
- Statistical analysis and CMMI L4/L5 implementation contributions recognized by customers and senior leadership.
